

\$DARKHORSE Whitepaper

What is \$DARKHORSE?

\$DARKHORSE is a digital token created on the Ethereum blockchain using the ERC-20 standard.

It has:

- No utility
- No functions
- No intrinsic value
- No roadmap
- No expectation of profit, interest, dividends, or returns of any kind

\$DARKHORSE is entirely without real-world utility and exists for entertainment purposes only. It is a memecoin.

Nothing more, nothing less.

What \$DARKHORSE is not:

To be clear - and to avoid all confusion - \$DARKHORSE is not, and is not intended to be:

- A medium of exchange for goods, services, or debts
- A payment method accepted by the public or any segment of it
- A security, share, debenture, derivative, or collective investment product
- A commodity or any other kind of financial instrument
- A representation of ownership, equity, voting rights, or any stake in a business or protocol
- A promise of future value, performance, or listing on any exchange
- An entitlement to fees, dividends, profits, revenue, or any economic interest
- An instrument designed for capital preservation, speculation, or investment
- Refundable or redeemable for cash or other digital assets
- A debt or financial obligation

TL;DR

\$DARKHORSE is a lacking real-world use case memecoin born from the internet.

It has no purpose, no utility, and no future - unless the community gives it one.

If you're reading this, you're probably already too deep.

Welcome to the cult.
